

GERMANY MUST BE FED TO CHECK RED TERROR

Swiss President Says Switzerland Is Interested in Preventing Rise of Anarchy.

ALL OF EUROPE IN DANGER

Allies and United States Should Feed Former Enemies as Matter of Self-Defense Against Spread of Revolution.

GENEVA (via London), January 25.—The allies must feed Germany and Austria-Hungary or the Red Terror will sweep the world, declared F. Calonder, the Swiss President, in an interview here.

"It is through Germany and Austria-Hungary that revolution can be spread through Europe," he said. "The situation in the old German empire, from the point of view of food and transport, is such as would give the instigators of revolution their greatest chance."

"Hunger is a bad adviser, while the troops flowing back from the front are not an element of order and authority. Switzerland as the immediate neighbor of Germany and Austria, is directly interested in seeing that anarchy is not installed there."

"The allies, who have shown us the greatest sympathy and who are interested in Switzerland's quietness and prosperity, cannot be indifferent to the peril in which Switzerland and the whole of Europe would be plunged if the central powers were given over to revolt."

"For this reason, then, the allies and America will send food to their former enemies. Switzerland will do her best to facilitate this humane work, persuaded that in this way she will be able to disperse the peril of revolution."

"The Federal Council, while showing its good will to facilitate the work of reconstructing Europe, is firmly decided to close hermetically all the doors of Switzerland to the instigators of disorder and their dangerous propaganda, and take the most energetic measures against them."

To Push Banana Business.

[By Associated Press.] KINGSTON, JAMAICA, January 25.—There has been a great development in the banana industry here, due to the fact that there was no hurricane last year, and with the cessation of the war the outlook appears promising.

The different trading companies are making arrangements to put on more ships, and an attempt is being made to get the growers to co-operate with the district associations, under the guidance of a large central association, to get better prices from the American purchasing companies.

This Vapor Treatment Surely is Fine for Catarrh

Breaks Up Cold In Head or Chest Over Night

If you want to get relief from stuffed up head in five minutes; if you want to feel refreshed and invigorated, try the following just before retiring and wake up with a clear head and bright eyes in the morning.

Into a bowl, three-quarters full of boiling water, pour a teaspoonful of HYOMEI (pronounces it High-o-me), cover head and bowl with a towel and breathe for five minutes the healing, soothing vapor that arises.

This vapor will penetrate into every nook and crevice where germs congregate and where soreness and inflammation cannot be reached by any other remedy.

A bottle of HYOMEI costs only 60 cents, but to relieve catarrh or stubborn coughs and colds the HYOMEI inhaler should also be used at least four times a day.

Tragle Drug Co. and druggists everywhere sell for \$1.15 what is called the HYOMEI outfit which consists of a hard rubber pocket inhaler, a bottle of HYOMEI and simple instructions for use; but if you already possess a HYOMEI inhaler you can purchase a bottle of HYOMEI, only 60 cents.

For catarrh, coughs, colds, sore throat, asthma and croup HYOMEI is guaranteed, or money back. It kills the germs and soothes and heals the sore and inflamed membrane.—Adv.

RAPID ADVANCE MADE BY ENGLISH TEACHER

Entered Army as Second Lieutenant and Comes Out a Brigadier-General.

LONDON, January 25.—From second lieutenant to brigadier-general during the four-year-war, with a good appointment at its close, is the record of a former teacher in England's county schools that carries a message of encouragement to every young man aspiring to make a mark.

When the horrors of the war broke loose in Europe, midsummer of 1914, G. H. Gates, a county school teacher, had recently risen to appointment as assistant director of education for Nottinghamshire. Without delay he sought and secured a commission as second lieutenant.

Lieutenant Gates saw service at Gallipoli—and gained promotion. Captain Gates saw service in Egypt and was promoted twice.

Lieutenant-Colonel Gates saw more service in France, where his ability was given wider scope, and was promoted twice more.

Brigadier-General Gates was about to be given command of a division with rank of major-general when the armistice checked his further military advancement. But his talents have not been allowed to rust.

Just before Christmas he was appointed director of education for the County of Lancaster at \$7,500 annually.

Build Fountain in Roosevelt's Memory.

[By Associated Press.] NEW YORK, January 25.—Announcement was made to-day that the National Association of Audubon Societies and affiliated organizations will begin at once the work of providing for the erection in New York or Washington of a Roosevelt memorial bird fountain.

Eminent American sculptors will be asked to present plans. It was said, and a national committee of nature lovers and sportsmen would soon be formed to advance the project.

IT PUTS THE "PEP"

Into Peptiron—The Combination of

Peppin, Nux, Iron, Celery.

This is what makes Peptiron of wonderful therapeutic value, and so successful after influenza, the grip and in blood and nerve troubles, anemia, paleness, nervous weakness and the exhausting worry and anxiety over the world war.

It is a real iron blood and nerve tonic, especially beneficial in the weakness following the influenza and grip, to worn-out, brain-fagged men, delicate women, school-tired girls and to fast-growing boys, invalids and convalescents, the aged and infirm. It actually puts iron, a natural strengthener, into the blood, and restores the wasted red corpuscles. Your druggist knows its great merit.—Adv.

Miller & Rhoads

"The Shopping Center"

Miller & Rhoads

Millinery thoughts that denote the Spring tendency

You're Invited to View the

Daily Arrivals

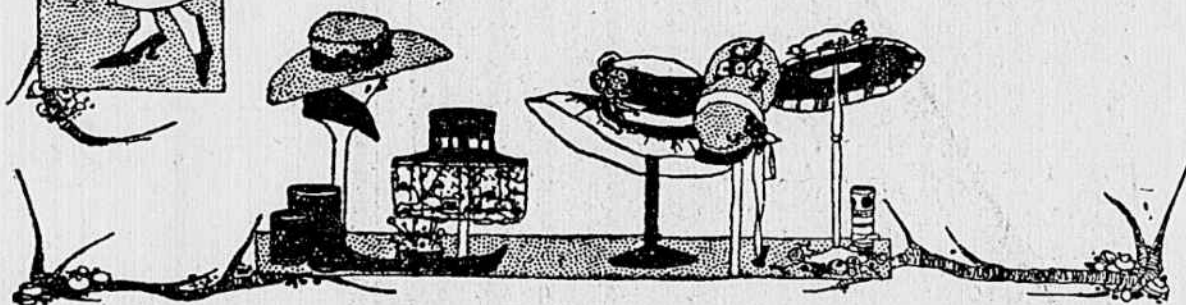

Eyes are bright, as only feminine eyes can be, when they alight on beautiful Hats. If a woman's hair is her crowning glory, what shall be said of the hat that crowns her hair?

In the Hair-Beauty Shop, On the Second Floor.

Superior accommodations for hair-dressing, manicuring, scalp and facial massage, at moderate prices.

Second Floor, South.

This Is "Shirting Week"

In the Basement Dry Goods Store, during which we shall especially feature fabrics as desirable for Women's Blouses as for Men's Shirts.

When you think of Shirting you naturally think of Miller & Rhoads. Anticipating an enormous demand, we have made our preparation, and beginning Monday morning we will offer our patrons the cream of styles from practically all the leading English and American mills. We have used the utmost care in the selection of patterns, bearing in mind that quality must measure up to the Miller & Rhoads standard, and the price must be right or a little better.

Patterns Are the Newest—Qualities Are the Best

And the prices are sure to be satisfactory when the two above points are considered.

At \$1.50 a Yard

Silk and linen shirting, both neat and elaborate stripes, usually seen in shirts at \$3.00 and \$10.00. Prettier patterns than are usually shown in all-silk shirtings and they wear twice as long.

At \$1.00 a Yard

Two qualities. First—a union of fine Egyptian cotton and fibre silk; also a big

assortment of neat stripe and figure combinations. Distinctive English styles, and is the longest wearing material known for semi-dress shirt. The colors are absolutely fast.

At 75c a Yard

We pride ourselves on the enormous assortment of beautiful styles shown at this price. Most of these numbers are of English manufacture, which reflect the ideas of the world's leading shirtings of what a shirt should be; also the most desirable numbers of American make. Made of the finest Egyptian cotton; also a few fiber silk and cotton numbers. Colors are all dyed in the yarn and woven into the cloth, therefore are fast.

Shirtings at 59c a Yard

All woven numbers. The colors are fast, most of them are stripes, beautiful, showy; two and three-color effects; neat, dainty single color stripes and a few neat one and two-color plaids.

At 25c a Yard

Mostly numbers of the higher priced. Shirtings reduced because the patterns are not quite so good, but a great many of them are shirtings bought as clean-up lots from manufacturers. They are priced accordingly.

At 39c a Yard

These are domestic shirtings. Made in patterns imitating the best styles in high priced materials. There are a few neat staples. They are full yard wide.

Basement—West.
